

Become an Elite Educator

with Pinellas County Schools

Our new **Elite Educator Program** – a partnership between St. Petersburg College and Pinellas County Schools – is changing the way teachers learn to teach.

Why is this different?

- You begin learning to teach from the first day of your first year.
- Your general education courses are designed specifically for education majors.
- You will be better prepared in all subjects, especially math and science, to work with all students, including Exceptional Students and English Language Learners.

If you successfully complete the Elementary Education degree program in four years, you will receive

- **Employment:** A job with  Pinellas County Schools upon completion of the Pinellas County School internship.
- **Paid internship:** Monetary incentives upon completion of the Pinellas County School internship.

Space is limited.

APPLY NOW!

Classes start
August 18.

We want Pinellas County to have the best teachers in the country, and we want you to be one of them.

Are you ready? Apply today.

Dr. Michael Grego, Pinellas County
Superintendent of Schools

Dr. William D. Law Jr., President
St. Petersburg College
