MatiasC I like the way they used teamwork.
BrittanyH Yo, we failed! We had to re-do it.
MsOwen @BrittanyH No big deal, that's all part of the Engineering Design Loop.

BryanB I wonder who won
JackH How is it powered?
MsOwen @BryanB I don't remember who won but I know each team re-designed to make them faster.
BrookeA @JackH We attached circuits that were powered by batteries to run them

DanielJ This was our first session together!

TommyS Why are you using string?

KaydeeR @TommyS We couldn't touch the cups and had to find a way to build it with string and rubber bands.
