

Dear Parent,

If your child is taking an AP® Exam this year, here is important information about exam scores.

Preparing to Access AP Exam Scores

- Your child should [sign in](#) to his/her College Board account.
 - We strongly suggest that all students go to the [student AP score website](#) and try signing in to their accounts now to make sure they remember their password. Then, they should save their username and password in a safe place.
- At exam time, students must fill in AP answer sheets carefully and consistently — especially name, date of birth, sex, mailing address, and email address.

Getting Scores

- **In May:** Check the [student AP score website](#) to find out the exact date scores will be available.
- **In July:** Get scores on the [student AP score website](#). Students will need:
 - their College Board account username and password;
 - their 2016 AP number (or student ID number if provided on the AP answer sheet)

Sending Scores

In addition to viewing AP scores, students will use this account to send scores to colleges (if they don't indicate a college on their AP answer sheet or if they want to send

scores to additional colleges). By sending scores, students can take full advantage of AP by strengthening their college applications and being considered for credit and placement.

Important Links

- [Student AP score website](#): Provides information about AP scores and your portal to view scores in July.
- [AP Exam dates](#)
- [AP practice questions](#)
- Follow us on [Twitter](#) for updates about AP Exams and scores.

Sincerely,

Advanced Placement Program
